Methods of Payment: We accept cash, money orders, checks, Mastercard, Visa, Discover, AMEX and purchase orders from schools and government institutions only. We ship UPS, USPS worldwide.

Pricing: For current pricing, call us at (407) 330-1116. Pricing is subject to change.

Returns: 30 day refund policy and any return must be with a receipt, authorized, and are subject to a 15% restocking fee. Special order merchandise subject to 25% restocking fee if the order is cancelled or returned. A 50% deposit is required on all special order merchandise. No money trade in on gift certificates.

Freight Charges: We will be happy to calculate your shipping and handling charges for you. We try hard to keep our pricing low, but it has become apparent that packaging is a large cost of shipping orders. Therefore fragile items such as kiln shelves, and bisque are subject to an additional packaging fees.

No Minimum Order: To best meet the needs of our customers, we will be happy to send any order regardless of size or amount. However, shipping companies do have a minimum charge which could raise your cost considerably for a single inexpensive item. Please keep this in mind when placing your order.

Bouncing Checks: We now have a \$60.00 service charge for any checks that bounce. Once a check bounces we will no longer accept checks from that customer.

Sales & Specials: Check out our online "monthly sale" page.

General Use

One coat will create a translucent finish with subsequent coats increasing opacity. We suggest 2-3 coats for opacity and all over coverage. Let dry between coats. Stroke & Coat® glazes will fire to a gloss finish without clear glaze. However, if desired, a clear glaze may be added. For application on bisque: Mayco recommends leaving an area unglazed, to allow water and organic vapors to escape during the firing process. Stroke & Coat® glazes have been formulated to mature at shelf cone 06/05. Most Stroke & Coat® glazes will maintain their color at higher temperatures, especially reds, oranges, yellows, greens and blues. We recommend testing prior to use.

AMACO

AMACO VELVETS SEMI-TRANSLUCENT UNDERGLAZES When left unglazed, they have the appearance of velvet; when covered with a clear transparent glaze, the color intensifies. They fire true to color and may be mixed to create new colors. Velvets are dinnerware safe when applied and fired under a dinnerware safe clear glaze and fired to specifications. **Cone 06-10**

XIEM STUDIO ART BAG

The Xiem Art Bag is designed for potters, artists, and students who need an easy access, efficient, and breathable solution to ceramic tool storage. Built around a robust metal frame, the thick canvas bag features 2 large compartments, 16 holsters, and 17 pockets of various sizes- ideal for brushes, trimming tools, and any other secret weapons you stash in your bag. 2 burly straps on each side keep larger tools from falling out, plus the canvas-reinforced plastic bottom won't let anything sharp poke through. Tough wooden handle and a load limit of 25 lbs.

XAB \$34.95 each tools not included!

MAYCO SILKSCREEN MEDIUM

Thickening agent intended to be mixed with underglazes and glazes to make a glaze-paste. This paste creates finer, sharper detail when using silk screens on ceramics.

CRESS/OLYMPIC KILNS

CRESS E-SERIES

The Cress E-Series electronic kiln features the most advanced electronic control on the market. It provides 5 (rather than 3) preset easy-to-use firing speeds, plus available custom programming capability, for an almost infinitely flexible range of firing profiles.

.This keeps maintenance to a minimum using one thermocouple instead of three. Temperature uniformity is superb by design and not brute force. Three-zone temperature controls may be ordered at additional cost at the

ES23 SECTIONAL KILN

time the order is placed. Cress is now the first to include heat reflective stands to greatly reduce the floor temperature when firing.

How much glaze do I need? How much clay will I need? Here are some tips to help you figure it out!

5 lb of dry glaze = 1 gallon
25 lb of dry glaze = 5 gallon

1 pounds of clay = 1 (9 oz) Cup

1 Pint of Glaze = 12 Cups

1 1/2 pounds of clay = 1 mug

1 Pint Glaze = 8 Mugs

3 pounds = 12" Medium Dinner Plate

1 Pint Glaze = 6 (12") Medium Dinner Plates
